

Brand of NTN Group

Mounting paste is essential for the installation of your bearings

Give your equipment lasting protection during bearing mounting and dismounting operations.

This thick paste is essential for preventing fretting corrosion and protecting your metal surfaces during assembly. Perfect for clearance fits, it preserves surface quality and ensures a flawless fit even under high stress!

Why choose SNR mounting paste?

Anti-corrosion protection: Prevents damage to contact surfaces and extends the life of bearings and components.

Easy mounting and dismounting: Suitable for wheel bearings, vibrating screens, bolts, nuts, flanges... No more struggling with difficult dismountings!

Guaranteed savings: Its low density reduces consumption and costs, with a heavy-metal-free, environmentally friendly formula.

Water and wash resistant: Durable in demanding environments.

Use in extreme conditions: Effective from -30°C to +145°C.

Don't let corrosion compromise your performance! Discover SNR assembly paste, your ally for durable, high-performance assemblies.
