

PRESS RELEASE – 21-JUN-2022

NTN celebrates summer with its "Summer Pro Days"

A promotion for every season! Buoyed by its success since the programme was first launched in June 2020, NTN is once again renewing its "Pro Days" promotional campaign. From June 21 to 24, 2022, aftermarket professionals who order one of the seven timing belt kits with water pump covered by the offer will be eligible to receive a voucher valid for one year.

A new season, a new offer!

Always eager to support aftermarket professionals, NTN is unveiling a new promotional offer for one of the brand's flagship products: Its timing belt kit with water pump.

From June 21 to 24, unlike with previous "Promo Days" campaigns, the promotion will not take the form of a discounted price. This time, a voucher will be issued instead.

Basically, for one week these seven-part numbers will be available at their normal price. However, the total amount of any order placed will entitle customers to receive a voucher valid for one year towards the purchase of any auxiliary kit (KA) products.

Depending on the amount of their order, customers will access "levels" corresponding to the vouchers. To increase participation and to reward each purchase, four levels have been established.

For orders totalling between €500 and €1000, the value of the voucher will be 5% of the amount of the order; from €1001 to €1500, it will be 10%; from €1501 to €3000, it will be 15%; and finally, for orders over €3000, the customer will receive a voucher for 20% of the total amount.

The part numbers covered by this offer are:

- KDP455.560
- KDP459.540
- KDP457.500
- KDP457.730
- KDP457.510
- KDP542.370
- KDP457.751

To take advantage of this special promotion, distributors can go to the e-shop of the manufacturer or get in touch with their usual NTN contact.
