

**NTN-SNR CONTINUES ITS EXCEPTIONAL PROMOTIONAL OFFERS
WITH "AUTUMN PRO DAYS"**

Its "Summer Pro Days" having been met with success, the world leading automotive manufacturer NTN-SNR is relaunching its promotional campaign on its range of brake kits. Called "Autumn Pro Days," these new flash sales will run from October 26th to 30th.

**FLASH PROMOTION ON 4 BRAKE DISC KIT
PART NUMBERS**

As announced this past summer, NTN-SNR is launching a new unprecedented promotional offer to all its European distributor clients this fall. Unlike the previous operation, this time for any order for the following brake disc kit part numbers placed between October 26 and 30, 2020, distributors will be eligible to receive free products:

- KF155128U
- KF155132U
- KF155131U
- KF15953U

**UNPRECEDENTED OFFERS FOR THE BENEFIT
OF PROFESSIONALS**

To take advantage of this exceptional operation, participants will simply have to go to the manufacturer's e-shop or get in touch with their usual NTN-SNR contact. For any order of a pallet (30 units) of each of the 4 part numbers, the distributor will receive a total of 20 units free of charge (5 units of each part number), or for any purchase of a pallet of a part number, 3 units of that part number will be offered free of charge.

This second wave of the manufacturer's new promotional program will not be the last. Communicated on social media, via the NTN-SNR website, and by the sales teams, each of these offers will target part numbers selected from among the top selling articles from the various NTN-SNR ranges.
