

Whilst the automotive aftermarket economy start again slowly, NTN-SNR, the world's leading equipment manufacturer, is mobilizing alongside distributor customers and organizing two unique promotional days.

FLASH PROMOTION ON 6 KDP REFERENCES FROM THE POWERTRAIN RANGE

Since June 15th, all of NTN-SNR's European distributor customers will receive a unique promotional offer put in place by the supplier: the Summer Pro Days. As the automotive aftermarket economy slowly picks up, NTN-SNR shows its support to the professionals by offering them exceptional prices during a two-day flash sale on June 23rd and 24th, 2020

On this occasion, 6 products from the timing kits with water pump (KDP) range will benefit from unbeatable prices for any order of 5 pieces minimum. To take advantage of this exclusive offer, distributors will only need to go to the supplier's e-shop or contact their usual NTN-SNR contact.

AN ACTION TO BE RENEWED

Aware of the new challenges resulting from the containment and anxious to support professionals in their recovery of activity but also on a daily basis, NTN-SNR is initiating a whole new promotional program. Far from stopping at a limited and isolated action, the equipment manufacturer intends to

regularly renew its offer if the Summer Pro Days are met with great success.

Relayed on social networks, the NTN-SNR website and the sales teams, these offers will each time target products selected from the top sales of the various NTN-SNR ranges.
